177OL-P01-ME01

Brushed brass middle connector and ring; white ceiling attachment, tube and cones; white reflectors

177OL-P01-ME02

TECHNICAL DETAILS

Cones: 4 x G9 LED 5W max

Globe Ø200: 1 x E27 LED 10W max (US: E26)

110-230V

IP20

Light bulbs not included

NOTE

Mirrored bulbs reflect a lot of heat back to the lamp holder. Depending on the space around the lamp holder, the heat might build up above the recommended temperature, especially if the heat is trapped when moving upwards. For this reason, the max. wattage indicated does not apply to mirrored bulbs, but to non mirrored bulbs only. If mirrored bulbs are desired, only those with a low wattage (such as LEDs) should be used. The max. wattage for mirrored bulbs is 5 watt LED (equivalent of 40 watt traditional bulb)

MADE IN

Germany

Sizes in mm. Flat attachments available only on request. Variations in colour and size are available for some collections, please contact Areti for more details.

Our collections are hand made and made to order, small irregularities in shape or surface will occur, they are inherent to the hand made process and should not be seen as flaws. For detailed information on any products: contact@atelierareti.com
